{YOUR MANUAL FOR LIFE}

TOYS YOU'LL FIGHT THE KIDS FOR

Hunting for the hottest toys at the American International Toy Fair in New York turned up some sweet finds. Here are a few for kids — and adults — to drool over.

Cogno: Deep Worlds (\$30)
Ages: 7 and older

A really cool board game where you have to outsmart alien eels, sea turtles, giant squid and enormous whirlpools. The only way to advance is by answering science questions. There's lots of strategy involved, with multiple paths a player can take and ways to frustrate your opponent. The game, available at www.cogno.com, comes with *The Book of Y*, which explains the science questions.
